Directional Surf.

Kites with **INTEGRAL** depower have changed our way of riding waves and boards have regained volume. No longer having to manage the pull of the kite, allows the Signature 173 by 45 to only use the wave's energy. It is pure surfing! With two inline straps it is up for any conditions. Strapless its overall balance glues it to your feet. Quick to plan you will also use it in light wind for awesome cruising sessions.

Construction : X-Core Wood Reinforced.

Equipment : Comfort Monopad - 3x 10cm G10 fins in mini tuttle - 2 super soft symmetrical straps.
