### PROGRAM

Since its creation, the TRAX has always been F-ONE most technologically advanced board. For 2010, we have focused on the twist and flex control using a 3D carbon cross in the upper layer: the Twist Carbon Control was born.

The TRAX5 does all the work for you as it absorbs all vibrations instead of passing it on your legs. It has an unbelievable directional stability and an astonishing precision when edging. Its 3D bottom shape, composed of a double concave shape, lateral V and channels makes the TRAX5 our fastest board. It also allows us to use a higher scoop for greater comfort and carving.

The TRAX5 is a successful mix of technology and performance. It combines the speed and precision one can expect from any top of the line board. The TRAX5 is made for all those riders who need a competitive board for freestyle, riding in any conditions and great pop to launch big airs.

The new TRAX5 is equipped with our 3D molded Platinum Pads & Straps for the best comfort and the new Strap Lock 2 for easy mount and setup.

The advertisement features a dark background with a light blue, textured surface. At the top center is the 'f-one' logo in white. In the top left corner, a red banner reads 'new 2009'. The main title 'STRAP LOCK 2' is displayed in large, white, sans-serif font. On the left side, a black and silver strap lock is shown vertically. On the right side, there is a rounded rectangular box containing the text 'EASY SETUP AND MAXIMUM COMFORT' at the top. Below this text is a video player interface showing a play button icon over a dark image of the strap lock. Underneath the video player is the text 'PLAY DEMO VIDEO'. At the bottom right of the advertisement is a list of five bullet points describing the product's features.
