F-One Bladder - Leading Edge

Manufacturer : F-One Kiteboarding

F-One Leading Edge Bladder replacement.

2008 and 2009 kites models, 08 Bandit, 09 Bandidos and Revolt all have independent bladders, with no connection between the struts and main leading edge bladder.

For 2010 with the Bandit 3, F-One is introducing a one pump system where the leading edge bladder is connected to all 5 struts. Thus the LE bladder will have the regular 2 points of inflation an deflation as well as the 5 valves for its connection to the 5 struts

We also have a limited number of bladders for prior year, 2007 Tribal and Rival. Contact us to know which size we do have

Please contact us for availability and single strut bladder.

To assist you while changing the Leading edge on the Bandit III.

Price : \$55.00
